

Talk CPR's goal is to encourage conversation about **CardioPulmonary Resuscitation (CPR)** for people affected by life-limiting and palliative illnesses.

Talking about **Do Not Attempt CardioPulmonary Resuscitation (DNACPR)** is an important part of advance care planning and can help minimise distress at a later stage.

A number of videos and resources to improve professionals communication with patients can be found at www.TalkCPR.Wales

To watch one of the videos on your phone scan the QR code above.
